Bridging knowledge. Growing East.

We are.

Homecomers is a network of professionals from various fields who aim at making use of their internationally acquired experience and education back in their home country.

The Community emerged in 2017 in Romania.

We believe in.

Home is being with like-minded people with an understanding and **respect** towards each other's **plurality** of experience, professional **development** and language. Romania is one of our many homes, and our current country by choice.

**Much like the
tango, it takes two
to be influential.**

We strive for.

We connect with **likeminded people**.

We share, bridge and continuously develop
experiences and **knowledge**.

We develop a feeling of belonging to a **community**
that has an **impact** on the microenvironment one
lives in.

We act.
